

1. You Tube became our partner!

KOBE International Harmony-Eyes Association was selected as one of You Tube's official partners. Currently, there are only 88 official partners of You Tube all over the world. And Harmony-Eyes became its first official partner in East Asia. We are going to keep broadcasting grassroots documentaries through Wajju.

2. Catch the Peace! & Social Contribution

In April of 2009, we started Harmony-Eyes Records, fully utilizing the power of music to expand sustainable circumstances and multilateral social actions to help solve issues all over the world.

In July of 2009, with the participation of famous artists, we released a compilation album called "Catch the Peace!" We have been selling the CDs at more than 1000 like-minded stores such as cafes, restaurants, beauty shops, grocery stores, etc.

With part of the revenues of the CD sales, we went to Kenya to support the local residents by providing them with the donation of food and medicine, holding lectures at the local prison, and planting trees.

We donated the food for 1200 individuals, 800 soaps for the jail, mango trees for the desert area, two donkeys, dollies and stationeries for 500 people.

3. We collaborate with Japan's largest chain video rental stores !

We, KOBE International Harmony-Eyes Association, are delighted to collaborate with Cultural Convenience Club., Co Ltd., which owns Japan's largest chain video rental stores "TSUTAYA" and initiate a social contribution project. TSUTAYA offers a new lifestyle value though both sales and rentals of DVDs, CDs, books and magazines, and games, under franchise model across the country.

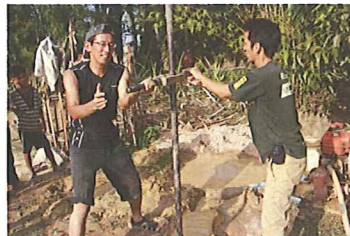

4. A Chain of Social Actions

■ Trash Pickup Movement by 10000 People

On May 3rd 2009, Harmony-Eyes, along with 15,000 people around the globe, picked up the trash.

In July of 2009, we went to support the children living in the dump community of Cambodia. We stayed there for a week, dug wells, donated educational materials, and provided sandals and boots for barefoot children to prevent them from getting injured.

■ Kizuna Peace Week happened from August 6th 2009- August 15th 2009.

We started this Peace Week to start peace actions practiced by 40,000 people all over the world.

5. United Earth!

To globally deal with all the issues around the world such as issues of human rights, environment and poverty, Harmony-Eyes started a project called “United Earth” involving various non-profit organizations, business leaders, artists, cultural figures and young people to create a positive movement.

With each individual providing his or her information or expertise for each other, we are going to generate a positive power to start social actions with all those like-minded powerful individuals.

Being affiliated with Studio Alta, known as the most popular meeting place in the Shinjuku district of Tokyo, we hold United Earth Alta every month. The venue has been filled up with a lot of young citizens, artists, and grassroots activities, all of whom get connected and impressed with each other and make up their minds to take their first steps for their own social actions.

6. Independence Support Programs

We have been supporting communities of Kenya, Cambodia, Sichuan of China, and Thailand, etc.
